One last chance I'm craving for you to give to me
Your conscience will eat you if you will disregard

How will you react if I'd try to explain these all to you
So please calm down
Put the blame on me I will give you the reason

It wasn't meant for me to say
You know I'm waiting
For your reply
Please don't deny my name
You know me well
This silence is killing now
We can't go back to the past

One last time I'm begging you to notice me
Unspoken words and phrases
Questions unanswered

I can't feel you presence now
Even though we're subjected to deep conversation
Propositions that I render made me honestly swear
This time I'm awakened to the truth (you know me, you
know me, I'll try)
Just like I'm waiting a second try (you know me, you
know me, I'll try)
What done is done
And now I'm regretting all that I've done
I'll be back next year
If you will reduce your pardon
