

Minute By Chance

"Sleepless Nights"

Visit "[Sleepless Nights](#)" on MotoLyrics.com

There are nights when I can't sleep
I'm always thinking about you
Wishing you upon a star even though there's
hopelessness
Let me hold you tight by pouring out my heart into this
glass
Let me understand this vision why I'm missing you
tonight

Time won't tell if you are for me
But this scene keeps occurring again
Time won't tell like a summary
Is this love that I'm falling again

All those nights I'm wandering
Traveling miles and miles away
All the feelings that I get
In tracing you up in the sky
Close your eyes so you could feel my sweet embrace
Our first kiss will be the last one in my dream

But now I'll wait for you
I hope you'll wait for me
