You left before the rain came down
December was the only sound
All the leaves fell to the ground
When you went away

It's a crying shame to see
A kiss become a memory
Now I know just what you mean
When you say

(Chorus:)
Way Above
Where the north winds blow
We will watch our love fall
To the valley below
Oh Jacqueline, I know (x2)

A pattern of the ways it seems
That's the way it has to be
Now I know just what you mean
When you say

(Chorus)

The Coven House
Where you now go
It stole our love
Don't you know
Don't you know

Oh Jacqueline, don't go
Oh Jacqueline, I know
Oh Jacqueline, don't go
Oh Jacqueline, I know
