Fate's failed, never to re-align  
Time has fallen out of line  
And now, my sleeping eyes  
Awaken to hate as it multiplies.  
You cannot say all of this is fine  
As this existence gives way to crime  
Cities fall into their demise  
Inactivity comes to SHINE.

(Chorus)

I will fight my way through  
The chaos streams.  
Gaining control  
Of fate's broken seams.  
I will form for myself  
A world that is mine,  
Bringing forth a place  
One of my own design.

Warcries slaughter all hope,  
Lost, dead and dragged inside a hopeless mire.  
Once proud people of this world,  
Consumed by endlessly raging fires.  
Wake up and witness this cataclysm  
Things have grown desperate and dire.  
This is not my ideal end  
But I'll rise to send it all to exile!

I WILL MAKE THIS RIGHT! (x8)

I will make this right... (x7)  
I WILL MAKE THIS RIGHT!

(Chorus x2)

I WILL MAKE THIS RIGHT! (x8)
