"Fine Tune"

Visit "[Fine Tune](#)" on MotoLyrics.com

i've been missin' all the vital signs
that i needed for love to work
engine of a heart that would not start
had to jump it so much it hurt
every time i looked under the hood
it was always a mystery
you pulled up in a rescue truck
showed up with a master key
and revved it up for me

my pulse was nearly gone
i was almost in need of a defibrillator
i don't know what went wrong
i had to shake it off
but i got stuck oh my god
you turn all my loose strings
your the love innovator that brings all the right tools
you know what to do
fine tune
fine tune

you started tweaking on a little knob
that i didn't even know was there
kissing on my wrist all the way to my neck
running your fingers through my hair
i felt like i was dizzy
and i didn't think i could try
you flicked a switch hot wired my gears
you put me in line
and now i'm runnin' right

my pulse was nearly gone
i was almost in need of a defibrillator
i don't know what went wrong
i had to shake it off
but i got stuck oh my god
you turn all my loose strings
your the love innovator that brings all the right tools
you know what to do
fine tune
fine tune

my pulse was nearly gone
i was almost in need of a defibrillator
i didn't know what went wrong
i had to shake it off
but i got stuck oh my god
you turn all my loose strings
your the love innovator that brings all the right tools
you know what to do ooo ooo oooo
fine tune
fine tune
