A great man once said, "Winter never fails to turn into Spring"

And though we're so different, you and I, when we're together, even the cold of December feels like a middle of May

You are the night, I am the day

You are the star that shows the way

You are the instrument I play

You are the words I long to say

You are the land, I am the sea

You are in counterpoint to me

And we agree to disagree

No need to lie

(Together we're strong) I only know when we're apart

(Together we're strong) I only live with half a heart

(Together we're strong) I need your hand to play my card

Together we're strong, we can't go wrong

(Together we're strong) And now we know just what to do

(Together we're strong) And how we get our meaning through

(Together we're strong) We're only one when we are two

Together we're strong

Together we're strong

Together we're strong

Together we're strong

Together we're strong, we can't go wrong

And every time your eyes meet mine, I feel the world fall into line

I'm passing on that good luck sign

Let's keep hanging on

And now we know just what to do and how we get our meaning through

We're only one when we are two

Together we're strong

And I will always try to understand you

I'll be there if you should need me

Plan you in my life

There's so much we can share with each other

But if we say good-bye it's not forever

I can't lose you now I found you
I need you ('Cause I'm in your, you're) in my life
And together we're strong,
There are so many ways of looking at the world
Everyone has a different dream
Yours may not be the same as mine but when we're
together we can make them all come true
(Together we're strong) You are the night, I am the day
(Together we're strong) You are the star that shows the
way
(Together we're strong) You are the instrument I play
(Together we're strong) You are the words I long to say
(Together we're strong) You are the land, I am the sea
(Together we're strong) You are in counterpoint to me
(Together we're strong) And we agree to disagree
No need to lie
(Together we're strong) You are the night, I am the day
(Together we're strong) You are the star that shows the
way
(Together we're strong) You are the music to my song
Together we're strong
Together we're strong
Together we're strong

Together we're strong
