Icicles, heavy and fragile  
Are witnesses of trickled felicitousness  
Weigh floods on your mind  
- Restless eyes, crying soundless  
Dried up herbage, coated with glory  
Of distressing transformation  
Drill clefts into transitoriness  
- Seething tears of your reality  
Opressed hankering for redemption  
Straitjacket of your soul  
Solidifying floes to the fire  
- Raving in uncontrolled stagnation  
Misty adumbrations laughing wise  
Penned up in the infinite cosmos  
Strange birds of prey circulate idly  
- Mystifying messengers of consolation  
Hide in your cocoon  
No occasion to crave  
No one reaches you
