Make you feel Don't you ever get restless When you  
find in the spring Don't you ever wanna chase a thrill Is  
a natural thing So very understandable And very  
weariness away That your eyes are straight Or the juice  
running loose Smile coming now smile From the food  
of a friend My love's gonna taste much better better  
Come I make you feel better baby It doesn't matter  
whatever they do I can make you feel good (I can make  
feel good) Come I make you feel better baby As long  
as I make you feel better better I can make you feel  
good (I can make feel good) It doesn't matter whatever  
they do As long as I make you feel better better La la la  
la la la..... Move a little closer Then ain't nothing that I  
got to hide Grows greener on my side As the time past  
you only see the grass Don't go for it If you wanna go  
for it 'Cos time will only pass you by So take a tip And  
make me feel better Think the thick of it Come I make  
you feel better baby As long as I make you feel better  
better I can make you feel good It doesn't matter  
whatever they do Come I make you feel better baby I  
can make you feel good It doesn't matter whatever  
they do As long as I make you feel better better I'll  
make you feel better, better, better, better I'll make you  
feel better, better, better, better I'll make you feel, I'll  
make you feel Better, better, better, better, better,  
better, better Make you feel Move a little closer Then  
ain't nothing that I got to hide As the time past you only  
see the grass Grows greener on my side If you wanna  
go for it Don't go for it 'Cos time will only pass you by  
So take a tip Think the thick of it And make me feel  
better Come I make you feel better baby I can make  
you feel good As long as I make you feel better better It  
doesn't matter whatever they do Come I make you feel  
better baby I can make you feel good It doesn't matter  
whatever they do As long as I make you feel better  
better Come I make you feel better baby It doesn't  
matter whatever they do I can make you feel good As  
long as I make you feel better better It doesn't matter  
whatever they do Come I make you feel better baby As  
long as I make you feel better better I can make you  
feel good (Make you feel good, make you feel good)

La la la la la la la la la.... As long as I make you better,  
better (Make you feel good, make you feel good) La la  
la la la la la la la.... (Make you feel good, make you feel  
good)
