Verse one when we begun,
u know you had a sister or sprung,
Withya tounge,
I thought you were my babe, but no.
When we laid, you always knew the right words to say,
we got engaged to be married the very next may.

Bridge

As the time moved on, the love we had got torn
You used to love me from dusk till dawn
Now your trippin from night till morn
Now you want me to change
Im sick of ya playin these games
Im tellin u one thing
U wont get it back x2

chorus

Give ya my love and i cant get it back
Give ya all my time and i cant get it back
now the ring that u gave me u cant have it back
Cos its just not goin down like that
Give ya my time and i cant get it back
Give ya all my love and i cant get it back
now the things that you gave me you want them back
But its just not goin down like that.

2.

Verse 2 now were through
Too much times bin wasted on you
But its cool, just class u as another young fool
I accept that u cramped
u couldnt take the heat so you stamped
now upset, dont come back for nothing now uve left,

Bridge x 1

Chorus x1

3.

Boy, let me tell u this
dont u know u cant get back,
what u put in this relationship

That includes this ring
Cos i know i cant get back
All my kissin, huggin, lovin

rap.
Check it
We had a happy environment
I put on this diamond...
I gave u my all and even met ur requirements
Now ur goin out cheatin and ur comin up smilin
U can say what u want but u aint gettin this diamond

(u aint gettin this ring back)
U tiptoed
(u bin livin a stranger)
just keep ya zipped closed
(did u really think that)
That u can take me 4 a ride
if u knock on my door u know were gonna colide
