I'm the dark grandfather a newborn child.
I'm the one who sow the seed of war.
I was lost in deep ocean of my life
Until I found myself and more.

I'm the one who's risen from the curse of death.
I'm the raper of virgin and killer of whore.
I've been here from beginning and now is the end.
I shall proudly burn at stake. Most evil of all.

I was hiding from daylight. Hiding from sun.
But the I became stronger. Evil son.
I got dark magic in my hands. Sorcerer.
I exist in higher forces but now I'll die with fire.
