"Roll On"

Visit "[Roll On](#)" on MotoLyrics.com

Ayo, oh, oh, oh
Ha ha ha
Gotta get your roll on
I said get your roll on
We're gonna get your roll on
All, all, all night long
Roll on
Enter, check, check

It's been a long week and we've been working
Had enough
Sometimes it all gets to you
When the pressure's just too much
(It's just too much)
Got myself a potion
Guaranteed to bring some fun
Mix good friends and some music
And head out to the club
And Roll on

It's Friday and you just got paid
We like the way you get your roll on
You know you need to get away
So turn your speakers up and roll on
Let me hear my fellas say
My ladies can you get your roll on
Roll, roll, roll on
So grab your boo and get your roll on

So here we are another night
Out on the town
We gettin' down
Havin' fun
Stayin' young
The whole entourage has arrived
I'm on the scene - know what I mean
(Check the rhyme!)
When I say
This world is mine
All you've got to do
Is sit back and ride

(There we go)

It's Friday and you just got paid
We like the way you get your roll on
You know you need to get away
So turn your speakers up and roll on
Let me hear my fellas say
My ladies can you get your roll on
Roll, roll, roll on
So grab your boo and get your roll on

It's Friday and you just got paid
We like the way you get your roll on
You know you need to get away
So turn your speakers up and roll on
Let me hear my fellas say
My ladies can you get your roll on
Roll, roll, roll on
So grab your boo and get your roll on

Let's take it to the floor
What are you waitin' for
The party's jumpin' now
We're gonna show you how
We like it, we like it
We really, really like it
So turn your speakers up and roll on

It's Friday and you just got paid
We like the way you get your roll on
You know you need to get away
So turn your speakers up and roll on
Let me hear my fellas say
My ladies can you get your roll on
Roll, roll, roll on
So grab your boo and get your roll on

Summertime
Sweeter than honey
Take your time
And move your body all night long
We're gonna roll on
Summertime
Sweeter than honey
Take your time
And move your body all night long
We're gonna roll on

Roll on
Roll on
Roll on

You never knew that we has the flows
Mis-Teeq make the money, so we're making mad
dough
If you never know - better get to know
So we're here on dis ting just to run the show

Don't resent me just because I'm on top
Of a fear - most people in the business flop
Don't screw up your face - Yo, Embrace
Do it for the love
But it's a jealousy
Bad race

If you got an issue
Stay your ass at home
Don't bring bad news
Coming out to the bubbling crew
We're all in the party

People in my chair
People dem my blow
People dem know that me love what me do
So roll on, roll on, black true
Rolling about cos the British are back
You're gripped by the Union Jack
Red, white, blue or black
An international anthem
Can you handle this song?
Well that's roll on

You never knew that we has the flows
Mis-Teeq make the money, so we're making mad
dough
If you never know - better get to know
So we're here on dis ting just to run the show
Ey Yo

You never knew that we has the flows
Mis-Teeq make the money, so we're making mad
dough
If you never know - better get to know
So we're here on dis ting just to run the show
