Hear my words today
Time for us to make a change
Our only future's fading away
Take a look at our world today
There must be a better way
Time for us to make a change
Our future's blackened by pollution
We satisfy the industry
Is it so hard for us to see
We waste our greatest legacy
Day by day our climate's changing
Why do we just walk away
I can't believe the things they say
There must be a better way
And I tell you...
Someone's gotta do it
Hear my words today
Time for us to make a change
Our only future's fading away
Take a look at our world today
There must be a better way
Time for us to make a change
Our future's blackened by pollution
We satisfy the industry
Is it so hard for us to see
We waste our greatest legacy
Day by day our climate's changing
Why do we just walk away
I can't believe the things they say
There must be a better way
And I tell you...
Someone's gotta do it
Hear my words today
Time for us to make a change
Our only future's fading away
Take a look at our world today
There must be a better way
Time for us to make a change
There must be a better way...
There must be a better way...
Must be a better way...
A better way...

There must be a better way
And I tell you... Someone's gotta do it
Can't you see it's all about our future
If you don't see it...
Just look around
Hear my words today
Time for us to make a change
Our only future's fading away
Take a look at our world today
There must be a better way
Time for us to make a change
Hear my {Words today}
Time for us to {Make a change}
Our only future's fading away
Take a look {At our world today}
There must be {A better way}
There must be a better way
