I lied
I lied
It's not cause I
It's not cause I wanted to
Trust me without you I'm incomplete
And you can have my tongue if I can't apologize for my
stance
I've killed the romance
So I'm standing here to claim responsibility

Cause I lied to you
It's not like I wanted to
But every chance I had to tell the truth
I lied to you
I lied to you
Because I wanted you
And every chance I had to tell the truth
I lied
I lied

Dirty I'll never fall asleep
And you can have my eyes cause I'll never see you
smile
The way I seem to portray
My emotions to you seems like I don't have a heart

When I lied to you
It's not cause I wanted to
And every chance I had to tell the truth
I lied to you
I lied to you
Because I wanted you
And every chance I had to tell the truth
I lied
I lied

It's not cause I wanted to
It's because I wanted you
It's my fault I'm confused
I'm such a fool
I'm such a fool

I'm such a fool
I'm such a fool
I'm such a fool
I'm such a fool
I'm such a fool
I'm such a fool
I'm such a fool
And I'm such a fool

Cause I lied
I lied
I lied

I lied to you
It's not like I wanted to
But every chance I had to tell the truth
I lied to you
I lied to you
Because I wanted you
And every chance I had to tell the truth
I lied
I lied
I lied to you
I lied
I lied
I lied to you
I lied
I lied
