Searching for the desert
Never thought that it would be this hard
It's not that far away
Leaving out the penance
It's just a waste of who we are
Can God come out and play
Let it go
What have you been waiting for
Let it go
Look what you found
What have you been waiting for
What's it gonna take to get this monkey off your back
And what have you been searching for
If there s one thing for sure I can't take it anymore
So what if I've been careless
I'll walk the path up to the stars
Less and less I've been holding back from more
Running around in circles
Playing the next scene in my head
For way to long I've been standing at your door
Not a moment too soon
Not a second too late
Where do we go from here
I can find a way
I will find a way
I can find a way
I will find a way
We will find a way
We can fly away
We could run away
We should run away
We're not that far away
