

Miseration "Dreamdecipher"

Visit "[Dreamdecipher](#)" on MotoLyrics.com

I lay upon your thought one needling eye
Another I cast into a spring as it was already told
But no care I have for the days masquerade
For my solitude creation

[Chorus]

With maps to the wilderness
In dreamdecipher
With charts of the construction of a planet
I dreamdecipher

Though I know it is mine
Your dreamed new day
That which you made unforgotten
The sights I have witnessed
For what heaven alone can forgive ye
But most of all I hope that none ever shall
For dreams such as those

[Solo: Plec]

Subconscious godliness or devildom
A will and a hater was born

[Repeat part 1]

[Repeat chorus]
