The more I crawl the more I bleed.
Taste of blood is all I need.
Taste of blood is all I need.

May I introduce the pain?
I hope you like it, feel the same as much as I do.

Follow and fall, don't be afraid.
On the edge of the yesterday's grave.
Follow and fall, don't be afraid.
On the edge of the yesterday's grave.

The less I feel the less I care.
Bring it back it's all I need.
Bring it back it's all I need.

May I introduce the pain?
I hope you like it, feel the same as much as I do.

Follow and fall, don't be afraid.
On the edge of the yesterday's grave.
Follow and fall, don't be afraid.
On the edge of the yesterday's grave.

Follow and fall, don't be afraid.
On the edge of the yesterday's grave.
Follow and fall, don't be afraid.
On the edge of the yesterday's grave.
Follow and fall, don't be afraid.
On the edge of the yesterday's grave.
