My turn now, finally it's payback time, my turn now!  
Eye for an eye, systematic violence, eye for an eye!

Inch by inch, break your every fucking bone!  
Give one excuse I have nothing to lose,  
Turn bitch and run I shoot to kill with this gun!

Eat you alive, do you really know my name, eat you  
alive!  
Now it's real, I decide who survives, now it's real!

Bone by bone, break your every fragile bone!  
Give one excuse I have nothing to lose  
Turn bitch and run I shoot to kill with this gun  
Just for fun!

I was never enough, silence can kill.  
Still your looks and expressions tell me that I'm just a  
fucking nil!

I am after you! I want your blood, I'll get it soon!  
Your head on a plate! face my fury, face my hate!  
My 15 minutes of fame! you got it now, this is not a  
game!  
Worthless to beg now, I'm here to kill!  
Still your looks and expressions tell me that I'm just a  
fucking nil!

Give one excuse I have nothing to lose  
Turn, turn bitch and run I shoot to kill with this gun  
Just for fun!
