Welcome to my reality.
Cover it all with black charity.
I can ruin your life too.
Drag you back to my life soon.

Breed some more brutality.
Growing darkness of heresy.
Give yourself to random end.
Just let go just pretend.

Too much memories to forget.
Too many highs and lows to regret.

Cyanide, would it be the way out of here, time is right.
The time is right now.
Cyanide, I can't see thru dim haze, my day is night.

Welcome to my insanity.
Please the side of my vanity.
Can't see right don't know wrong.
All is red and red is strong.

Cyanide, would it be the way out of here, time is right.
The time is right now.
Cyanide, I can't see thru dim haze, my day is night.
Cyanide, would it be the way out of here, time is right.
The time is right now.
Cyanide, I can't see thru dim haze, my day is night.

Too much memories to forget.
Too many highs and lows to regret.

Cyanide, would it be the way out of here, time is right.
The time is right now.
Cyanide, I can't see thru dim haze, my day is night.
Cyanide, would it be the way out of here, time is right.
The time is right now.
Cyanide, I can't see thru dim haze, my day is night.
