The wait for something,  
the wait for someone  
wish I could give it all up,  
for the unknown  
Hide behind the big nothing,  
afraid to breathe  
the crucifixion of christ,  
forever

Deny everything - deny everything  
Deny everything - deny

What I don't know,  
is what hurts me the most  
what I can't see  
is what scares me at night

It feels so useless,  
everything turns black  
I am back where I started,  
over and over again

Deny everything - deny everything [x2]

Hide behind the big nothing,  
afraid to breathe  
the crucifixion of christ,  
forever more

Deny everything [x2]  
Deny everything - deny everything [x2]  
Deny everything
