Visit "[Cough/cool](#)" on [MotoLyrics.com](https://MotoLyrics.com)

This street we walk upon  
This corner full of piss and fear

This street won't bear it long  
It slants, it tilts, it's brought outside  
Alive

Cover your face when you walk by  
Drench your visions in darkness

Spit up blood when you cough  
Cool, cool, cool  
Cough, cool, cool, cool

We dine on visions with new eyes

Creep, creep, creep, creep  
We cut our visions with two eyes  
Cool, cool, cool, cool

This street we walk upon  
This corner full of fear  
This street we walk upon  
This corner full of piss and fear
