Furious the exodus walks
Along the maddening march of death
With the furor and the masses
Whose supremacies is the dominion
Alien bodies stiff and cold
Your inner sane turns numb
You transform into a rage
Too naive to understand

And as they go on the sacrifice grows
We're living on ground zero, fire
This island earth
Target locked, systems checked, enter code
We're living on ground zero, fire
(fire, this island earth)

Locked up in a room
Human beings in a cage
The sentence a scienced death
As they pull the triggers of ray guns

Evil blackened eyes of youth
Absorbing life's hidden anguish
Death thrown all about the ground
Or those who wouldn't fight

And as they go on the sacrifice grows
We're living on ground zero, fire
This island earth
Target locked, systems checked, enter code
We're living on ground zero, fire
(fire, this island earth)

We're living on this island earth (this island earth)
We're living on this island earth (this island earth)
We're living on this island earth (this island earth)
We're living on this island earth
