They'll find pieces of you  
Scattered on the ground  
I am the mad man in your dreams  
We are the evil ones

We need the planet to demonstrate  
We want your body to incubate  
Begin the breeding of an alien superior race  
That in which will ultimately dominate

Give into what you cannot fight  
Walk among us  
Whoa oh  
Walk among us

Go

The abductions have already begun  
All around us we've infected someone you love  
Initiate the start of an alien war  
We've already won

Give into what you cannot fight  
Walk among us  
Whoa oh  
Walk among us

Whoa oh  
Walk among us  
Whoa oh  
Walk among us
