

## Misfits Of Science

### "Are We Right To Believe"

Visit "[Are We Right To Believe](#)" on MotoLyrics.com

I've been searching for God  
I couldn't find him  
Though I saw a lot  
There must be answers I want to find  
But where to start  
With no clues of any kind

Are we right to believe  
In something we can't prove at all  
Are we right to believe  
In something we can't prove at all

I've been searching for God  
I traveled 'round the world  
Finding no proof

There must be more that's what they say  
I couldn't find solutions  
Proving what they preach

Are we right to believe  
In something we can't prove at all

Are you right to believe  
In something you can't prove at all

Am I right to believe  
In something I can't prove at all
