Never thought it could be this way  
But I realize somethings changed  
Good friends weve been, thats it, the end  
Now I see through different eyes

Never thought I could be wrong  
Had it all so figured out  
But you knew all along  
Id turn around

### CHORUS

I cant breathe, I just freeze  
When you look at me  
I cant think, youre twisting my mind  
Suddenly, I cant be  
Even one minute away from you  
Unexpectedly, unexpectedly

Youre the last piece missing in me  
You make me feel so complete  
What youve been through  
Sorry wont do  
But Ill make it up to you

Much to my surprise  
You broke my stubborn spell  
Didnt think Id fall this time  
Cant help myself

### CHORUS

Hard to believe it  
You found my weakness  
Im giving into you, for me
