Looking back  
Pushing with the rewind  
Changing every  
Wrong or right that you see

If you could  
Don't you think that you would  
Make it right  
Just like you want it to be.

Now it's never to late  
There's a will  
There's a way  
Gotta stay in the game  
Go the distance  
Cause you live and you learn  
That it takes a lot of work  
But you win in the end  
With persistence (OH!)

[CHORUS:]  
Mix it up get it right  
Go for another try  
And still run it back again (run it back)  
Replay hit rewind  
This time you'll do it right  
And still run it back again  
Run it back again  
Run it back again, try again

Never wait around  
cause every minute counts  
If you got the time  
what would you do with it  
Would you change  
show me what was rearranged  
If you got the puzzle right  
how would the pieces fit

Now it's never too late  
There's a will

There's a way  
You can save the day  
Like a hero  
Cause you live and you learn  
That it takes a lot of work  
Hoping nothin's gonna stop you

[CHORUS:]  
Mix it up, get it right  
Go for another try  
And still run it back again (run it back again)  
Replay, hit rewind  
This time you do it right  
And still run it back again (run it back again)

On your mark, get set, let's go  
Aw, you can make it hot, if you want it to

Tick tock time to rock  
You know  
The future's up to you  
One more time now

Mix it up get it right (get it right)  
Go for another try  
And still run it back again (back again)  
Reply hit rewind  
This time you do it right  
And still run it back again  
Run it back again

Mix it up, get it right  
Go for another try  
And still run it back again (back again)  
Replay, hit rewind  
This time you do it right  
Run it back again
