This rips me up, it knocks me out  
It lies to me til I'm down  
Darkness depart from me  
Dwell with me no more  
And I will not endure you  
Cling to me, may I know Your triumphant ways  
Cling to me, may I know Your triumphant ways  
Yeah, yeah, yeah, I love light, I love light ways  
You fail me not  
I love light, I love light ways, You fail me not  
I love light, I love light ways, You fail me not  
Light be louder in my head  
Rush in like a mighty wave  
Run in the path of Your commands  
For You have set my heart free  
Cling to me, may I know Your triumphant ways  
Cling to me, may I know Your triumphant ways  
Yeah, yeah, yeah, I love light, I love light ways  
You fail me not  
I love light, I love light ways, You fail me not  
I love light, I love light ways, You fail me not
