"Let's Get Together"

Visit "[Let's Get Together](#)" on MotoLyrics.com

Let's get together, let's be in love
Let's get together, let's be in love always
Our hearts beat the same beat
The trees and plants as well
I hope we're holding hands
When we're caught in the air
Blink, blink, blink we're new
Old is made new through and through
Let's get together, let's be in love
Let's get together, let's be in love always
Roll out the carpet
Bang those party drums
Spin me around, I finally see the good one
We get everything we wanted
Everything we wanted, everything we wanted...
I adore you
I close my eyes, letting it all come soon
Let's get together, let's be in love
Let's get together, let's be in love always
Always, always...
Let's get together, let's be in love
Let's get together, let's be in love always
