No divine presence ever touched us  
No miracle let us talk in tongues  
Now you spend your days praying, crying  
For forgiveness just for being human  
You've made it clear you will not rest until  
You've sussed out -  
What does God say?

The human punk is an animal  
The human punk is unconditional  
The human punk loves those who keep sinning  
Over and over again  
Yeah yeah

God's good children are playing outside  
Learning to cheat, learning to hate, learning to fight  
Why do we rejoice in pointless suffering?  
What does God say?

The human punk adorns my walls  
The human punk never fails to rock my world  
The human punk is always listening  
The human punk is a God worth worshipping  
The human punk is an addict:  
And adrenaline-junkie, Class-A mentalist  
The human punk is ready to die to keep the rock 'n' roll  
The rock 'n' roll dream alive

They told me to burn my books and my CDs  
And that my friends were a satanic, evil influence on  
me  
And you say rock 'n' roll destroys the soul?  
I say, BITE ME -  
What does God say?
