You talk about a class war between 'us' and 'them':  
The beautiful freaks and the straight white men  
Despite what the beautiful people believe  
You don't inherit the earth through vanity  
No

It's not your commitment to the cause that's in doubt  
But how you'll make a big noise with a cock in your  
mouth  
Despite what the downtrodden people believe  
You don't inherit the earth through being meek  
No

Dance dance baby  
Let the white noise take you over  
Dance dance baby  
The white noise incorporated  
Dance dance baby  
Let the white noise take you over  
Dance baby dance  
We will rock you like a hurricane
