He got a real long reach in the derrick when he leans  
He's been all around the world on the big oil rigs  
With the welders and the trucks on the black gold rush  
And the diesel burnin' Cat motors growlin' and the mud

You'd better hire him on, he's the roughest neck  
around  
He got the power in his hands to pull the dragons from  
the ground  
Yeah.

It's 35 below or its 98 above  
And he's workin' thru it all, cuz baby this is what he  
loves  
Drives a hundred-fifty miles make sure his kids are  
doin' fine  
And he sees 'em when he can but he's married to his  
iron

You'd better hire him on, he's the roughest neck  
around  
He got the power in his hands to pull the dragons from  
the ground  
Yeah.

He's a good hand to have on, and he's throwin' on the  
tongs  
Spinnin' chain and slidin' high side all night long  
And he's tripping in his pipe, and he torques it good  
and tight  
And ya gotta figure Eddy's got his mud weight right

You'd better hire him on cuz he's better than the rest  
He got the power in his hands and the dragons in his  
chest  
Yeah.

Well, his mind's a little tired but his back is plenty  
strong  
Got his green kings and filthy, frozen coveralls on  
And he's drilling by the inch and he's hauling on the  
winch

Takin' fuel from the tanks on his short change shift

You'd better hire him on, he's the roughest neck  
around

He got the power in his hands to pull the dragons from  
the ground

Yeah, you'd better hire him on cuz he's better than the  
rest

He got the power in his heart and the dragons in his  
chest

Yeah.

He brings the power to the people

Power to the people

Cuz he's the roughest neck around

He's pullin' dragons from the ground
