My baby gives me the love I've looked for all my life  
He's the only guy that I would take for my man  
Our relationship is good yeah it's one of it's kind  
But I've gotta leave my troubles behind

I'm acting superstitious when he's been away  
A jealous little woman with nothing to blame  
Screaming and threatening that I would leave him  
Well it's my troubles I should leave behind

My baby loves me when I'm down and out  
My baby loves me when I'm up and shining  
Don't want to scare him away from me  
Oh, how I love him

I've got to have faith in you and let you feel free  
That life would be as good as you are to me  
Honey I don't want to mess this up one more time  
Promise I will leave my troubles behind

My baby loves me when I'm down and out  
My baby loves me when I'm up and shining  
Don't want to scare him away from me  
Oh, how I love him

My baby loves me when I'm down and out  
My baby loves me when I'm up and shining  
Don't want to scare him away from me  
Don't want to scare him away from me  
Oh, how I love him  
Oh how I love him  
How I loove  
How I love him  
How I love him
