I'm busy so busy  
trying to make a selfish dream come true  
should I conquer the world?  
All I need is you

This goes by cold and long  
without you, all by my side  
should I conquer the world?  
All I need is you

Then she .. that fancy .. ?  
Expensive taste like she could .. ?  
Rather stay home with you, darling  
And why should I waste that single day  
without you  
Why should I waste that single night  
without you, my baby

I'm busy so busy  
trying to make a selfish dream come true  
should I conquer the world?  
All I need is you

Let's leave our misery  
A better new way for you and me  
should I conquer the world?  
All I need is you
