He said that iâ€™m the only one locked inside his head. the sweetness of his kisses on me â€” are hers instead. end this false illusion, cause now i see heâ€™s changed. cause his cold love runs straight through the heart. is this the way it used to be? a love disaster? or is this the way itâ€™s meant to be? a love disaster. youâ€™re not the man to cherish her, so why does she stay? youâ€™d just walk right out on her loveâ€¦.run away. and your cold love runs straight through the heart.
