Don't really know if your feeling me,
But some how I think your on to me
Wanna say if you want you can call me,
Anytime girl when you get alone
Got me thinking bout you at the wrong time,
Got homework but you all on my mind
Ain't no use in trying to study with your smile the
Only thing that's got me thinking

Girl I been hideing it,
But girl you been finding it,
Now girl you keep telling everyone bout.....

What makes you think I would care for you?
And what makes you think that I want you too?
And what makes you see all the things I do?
Could it be that look in your eyes, 'cause I know you like
me too!

I wait for you to tell me what's up,
Anticipation keeps me caught up
I must admit it girl you got me messed up
Hope you don't go to the one that's messed up
These little games that you play are so cute
Like your face baby you are so cute
Go head and blush 'cause you know you want too
Playing hard to get when you know you do

Girl you been hideing it,
But girl I been finding it,
Now girl you keep telling everyone bout....

What makes you think I would care for you?
And what makes you think that I want you too?
And what makes you see all the things I do?
Could it be that look in your eyes, 'cause I know you like
me too!

Baby I think that I need you too
Tell me if your feeling me
Just like I'm feeling you (LALALA)

You can hide when I see in your smile
Baby that your watching me
Just like I'm watching you

What makes you think I would care for you?
And what makes you think that I want you too?
And what makes you see all the things I do?
Could it be that look in your eyes, 'cause I know you like
me too.

What makes you think I would care for you?
And what makes you think that I want you too?
And what makes you see all the things I do?
Could it be that look in your eyes, 'cause I know you like
me too.

What makes you think I would care for you?
And what makes you think that I want you too?
And what makes you see all the things I do?
Could it be that look in your eyes, 'cause I know you like
me too.

What makes you think I would care for you?
And what makes you think that I want you too?
And what makes you see all the things I do.....?
'cause I know you like me too.
