I gave you flowers and you gave me faith  
We are minds and hearts that move as one  
Chameleon, warrior, gypsy and brave  
But turn our eyes to the heart of the rising sun

(chorus)

You and me, we are blood brothers  
You and me, we are blood brothers  
Blood brother, lay down your life for me  
Lay down your love for me

Kiss by kiss, touch by touch  
We talk of clouds that {walked, rocked}  
You took my hand and walked me through the rain  
And act of love, mission and tender mercy  
We stood tall and proud together we can't get hurt  
again

(chorus)

We {pull} your punch and we gave em hell  
The feelings dry and the chains will tell  
Manors and sand and seas and land and with the  
winds to come  
And we rose again to win the war to rule and reign and  
harvest soil  
Hands held high, stars in the sky and we kissed the  
ever faithful lome  
I {spray} your love

Father, your a good man and honest man, a saint not  
heard  
Mother, I wish I could tell you I love you  
Sister, you're a goddess and I want you to take me to  
heaven  
Blood brother, you're a hand in my heart and your  
innocents lay battered and bleeding

(chorus)

God, I feel so strong but I just want to break down and  
cry

Father, I feel so strong but I just want to break down  
and cry  
Brother, I feel so strong but I just want to break down  
and cry  
Father, I feel so strong but I just want to break down  
and cry  
God, I feel so strong but I just want to break down and  
cry
