THE MISSION: Like A Child Again

Im not scared anymore

Im not scared of the dark when I sleep with you

And Im feeling alive

And Im feeling strong again when Im with you

And it hits me

Just like a runaway train

And it blows me away

Just like a hurricane

You make me happy and I hope you feel the same

You make me feel just like a child, a child again

Im not trapped anymore

Between Madonna and the whore when I lay with you

And the days run away

Like wild horses run away when Im with you

And Im breathing you in

Just like the morning air

And Im wrapping you around

Just like a skin to wear

Oh sweet thing

Im born once again

For you sweet thing

Just like a baby again

You make me happy and I hope you feel the same

You make me feel just like a child, a child again
