TOWER OF STRENGTH (LP version, The Mission)

You raise me up, when i'm on the floor

You see me through, when i'm lonely and scared

And feeling true to the written word, and you're true to me

And still i need more, It would tear me apart

To feel that no one ever cared

CHORUS: For me, to me ,to me

You are the tower of strength to me

You stand firm and proud, when the wind blows in your face

And when the sun shines in you eyes

You just turn your head away

CHORUS: To me, to me ,to me

You are the tower of strength to me

You rescue me, You are my faith, my hope, my liberty

And when there is darkness all around

You shine bright for me, You are the guiding light

CHORUS: To me, to me ,to me

You are the tower of strength to me

You are all passion and heart, when i lay in your embrace

And heaven is in your kiss, salvation lies just a touch away

CHORUS: To me, to me ,to me

You are the tower of strength to me

(On the short version the last verse is missing.)
