

Mission Of Burma

"Forget"

Visit "[Forget](#)" on MotoLyrics.com

White walls
Tattooed papers
Confused by the details
Dangerous
It's just a monument
Demanding to get a reaction

When you are close to me
I can forget
When you are close to me
It is all right

When you are close to me
It is all right
When you are close to me
I can forget

...
And then disappear
I swerve
Just to listen to words
I stand upon this stupid platform
...

When you when you when you're close to me
It is all right
When you are close to me
I can forget
When you are close to me
It is all right
When you are close to me
I can forget
