It's not just a blink
Or the following of an arm
And it isn't just a flicker
No it isn't just a flicker
Oh, there's a look in your eyes
That you can't explain
Oh, there's a look in your eyes
And when it slips through the rain
Oh, there's a criss-crossed thinking
(No it's not just a blink)
There's a...
(No it's not just a blink)
From the house to...
(No it's not just a blink)

(No it isn't just a flicker)
There's a look in your eyes and...

It's the pulling of the undertow
When you can't control the wheel
It's not just a blink
Or the following of an arm
No it isn't just a flicker
No it isn't just a flicker
There's a look in your eyes
That you can't explain
There's a look in your eyes
And it slips through the rain
Underneath the gaze
Underneath the gaze
Underneath the guise
Underneath the guise
Underneath the gaze
Underneath the guise
Underneath it goes away
