Chorus x2

Baby I love you and I'll never let you go,
But if I have to boy I think that you should know,
All the love we made can never be erased,
And I promise you that you will never be replaced.

I love you, yes I do,
Ill be with you as long as you want me to,
Until the end of time.

From the day I met you I knew we'd be together,
And now I know I want to be with you forever,
I want to marry you,
And I want to have your kids,
It can never compare to the feeling after kisses.
I can say I'm truly happy to this day,
You made me think of that I live my life everyday,
There's never been a doubt, in my mind,
That I regret ever having you by my side.
But if the day comes that I have to let you go,
I think there's something I should probably let you
know,
During everyday that I spend with you,
And I won't miss you 'cause i'm happy that I had you at
all

Chorus x2

Baby I love you and I'll never let you go,
But if I have to boy I think that you should know,
All the love we made can never be erased,
And I promise you that you will never be replaced.

Fading out

I love you, yes I do,
Ill be with you as long as you want me to,
Until the end of time.
