

Mission To Felspar "Bombs Away"

Visit "[Bombs Away](#)" on MotoLyrics.com

We almost made it out until the water ran dry
the tensions way to hot and it's burning us alive

Attention homeland the wars right here
to young to vote to broke to care so what's the
difference
attention everyone we got the guns to shut em' down

Bombs away away with everything they hate they hate
and every life they take away causes pain and
suffering
time to change today to take back all that we gave
away
to save what's left to save us all stand for what's worth
fighting for

The nsa cps the court da
they strong arm all the poor fuck the agencies

Attention homeland the wars right here
to young to vote to broke to care so what's the
difference
attention everyone we got the guns to shut em' down

Bombs away away with everything they hate they hate
and every life they take away causes pain and
suffering
time to change today to take back all that we gave
away
to save what's left to save us all stand for what's worth
fighting for
