Never knew how much you can mean to me
Till the moment you saw how untrue I could be
Never meant to cause you sorrow
Never meant to cause you any pain
But with all the best intentions
I can't promise I won't do it again

I don't know what it is that drives me
To make me want to throw it all away
'Cos you're really very precious
And I do so dearly want you to stay

Gets harder all the time to be away from you
And I want to work it out
So you can grow to trust me too
Like I trust you

Time is not the healer
I was hoping he would be
I'm still tender and bruised
But I want you to touch me

There's healing in your touch
And you're the one I need to be with
I want to give myself to you
Give you all I have to give

You made me live
You made me breathe
You made me breathe
