Being caught up in the fame  
A part of the glamour and glitz  
Platinum rings and different things  
How easy we forget

For it is him, the Lord Almighty  
Who allows us our success  
When you on top above the charts  
How easy we forget

Do you think without him  
You would be who you are?  
For if he made Heaven and earth  
He also made you a star

So as we reach the year two thousand  
You know there's one higher than us  
And I come to be that tool to tell you  
In God we must trust  
Love you
