Check this out, base, base  
You're ready, you're ready  
Holler,  
Don't come around hear your own the problems  
This is the kind of beat the â€¦ won't borrow  
Superman ain't even got these kind of powers  
To make the hottest rapper rap â€¦ whack in sour  
With the light flowers give me an hour  
I could get the free style all the way to â€¦  
Call me you chubby chicks â€¦  
But I aim for your brains like a bow and arrows  
Rushly dressing my â€¦  
â€¦ come down like an April shower  
Singing my rap it's like a Christmas carol  
â€¦ from the head of the barrel  
I got a clean version for the kids â€¦

More controversy than 50 â€¦  
Before you won the battle but I'm throwing the towel  
Not my goodies but I go to â€¦

Swat, swat dat fly, don't let it, swat X 3

I ride mikes around â€¦ I just might  
Change music yo all fools lose sight  
I make brackets and breaking brackets while yo all  
fight  
Oh yeah, you're messing with the M to the I  
My carrot's still bright, they make light  
For no price â€¦ life  
This flight first class I must fly  
Lambos and â€¦ I gotta ride,  
Oh my, my my, I'm on to fly.
