We say that believing was yours and mine to break
Colors bled each glittered night, the sky was crying
Is there a danger that we feel too much?
We believe that love survives let it conquer
Would I walk a thousand miles to see your smile?
Would I lay me down and die?
Yes you came, saved me from
(The black cloud rains)
Sweet angel in my arms
Then you cried washed away
(The black cloud rains)
All my senses came alive
You touched love so pure
(The black cloud rains)
Never shadow again
I don't want to live in the black cloud rain
I don't want to follow the black cloud rain
I don't want to pray to the black cloud rain
Shelter me from the black cloud rain
There is forgiveness breathing in the world
Ancient souls from ancient times run deeper
We are everything and nothing recognized
Scary monsters on my wall, yea
Yes you came, saved me from

(The black cloud rains)
Sweet angel in my arms
Then you cried washed away
(Black cloud rains)
All my senses came alive
You touched love so pure
(The black cloud rains)
Never shadow again
I don't want to live in the black cloud rain
I don't want to follow the black cloud rain
I don't want to pray to the black cloud rain
Shelter me from the black cloud rain
I don't want to live in the black cloud rain
I don't want to follow the black cloud rain
I don't want to pray to the black cloud rain
Shelter me from the black cloud rain
No, no, no, no, yea

[Black cloud rain, no]
Black cloud rain, I don't want to see
Black cloud rain, away from me
Black cloud rain don't follow me
Ancient souls come set me free
Black cloud rain, I don't want to see
Black cloud rain, away from me
Black cloud rain don't follow me.
