Simplicity, gentle words touching me
Speaking in my tongue
I know, I always knew that nothing flows
From where I think too much
Simplicity, [simplicity] write your poem across the sand
Oceans drift away
Sometimes [simplicity] I'm lost, sometimes I find
The space to breathe the air
When all I want is to kiss the sky
All I want is to be alive in your arms
And I live to see the stars
Close my eyes and feel like I belong
See the light soft, see the shadows hard
When you try to understand
Simplicity, [simplicity] Jasmine scent in your hair
tonight
No camouflage on your face
I know, [simplicity] I always knew that love won't flow
From where it hurts too much
Simplicity, [simplicity] a single calalily stands
On the table in my room
Conceived, [simplicity] never believed the miracle

Treasure of my life
Eh
When all I want is to kiss the sky
All I want is to be alive in your arms
And I live to see the stars
Close my eyes and feel like I belong
See the light soft, see the shadows hard
When you try to comprehend
Let me stand-alone
Let us stand together
I just want to live the words
Simplicity, unity, everything I want
Simplicity, harmony, everything you dream
Simplicity, destiny, everything I want
[Simplicity destiny]
Simplicity, symphony, everything you dream
Simplicity...
[Simplicity]
[Simplicity]

No, no, no, no, yea, yea
Oh no, no, no, yea
Simplicity, [simplicity] gentle words touching me
Speaking in my tongue
I know, I always knew that beauty flows
When I understand
Simplicity
[Simplicity].
