Beautiful mind
Is real in your head or in mine
Believe all the good things and not the bad
'Cause even if they're true you don't need to know do
you
No you don't need to know do you
You don't need to know.

And I dont know how you do it
I will learn
Just teach me
Preach me your love
I've never wanted to learn anything more
This is a new world, and if your gonna find the good it
it
It's gotta start where your coming from

Ah da da da dum
Ah da da da dum

Beautiful mind
If the world was made up of your kind we'd still be
monkeys picking fleas
But at least we have no use for fear
Emotion and abuse
No one to win
No one to lose
Lovers could pick and choose

Just teach me
Preach me your love
I've never wanted to learn anything more
This is a new world and if your gonna find the good it it
It's gotta start where your coming from

Ah
This is a new world
And if your gunna find the good it
It's gotta start where your coming from

Ah da da da dum

Ah da da da dum

Her lovely hair
It floats amongst the breeze like angel tentacles tasting
air
No
She said everything has a sound
The art is merely learning to hear it
Learning to hear it
Larning to hear it

And I will learn
Just teach me
Preach me your love
I've never wanted to learn anything more
This is a new world and if your gonna find the good it it
It's gotta start where your coming from

Ah
This is a new world
And if your gunna find the good it
It's gotta start where your coming from

Ah da da da dum
Ah da da da dum
