Somebody said, ?Can ya find the way to God??
I said, ?I found my way in bee dop an' doo bah?
That's how I found my way to God

Walkin' down the street saying hi, hello
But how far do you think I can go before I start?
Having to sing you the blues
Dab an' doo bah

Tappin' to the beat singin' hi-di-ho
But how long do you think I can go before I start?
Having to get in the groove
Dab an' doo bah

'Cos I know that there will always be a life for me
Because I found my place in history
As a lover of the bee dab an' doo bah
That's how I found my way to God

So you're sitting in your seats and tapping your toes
But how long do you think you can hold before you
start?
Having to join in my groove
Dop an' doo bah

There's a beat in my feet as I tumble the seas
And the waves of ecstasy
And can you feel the vibe, does it move you inside
Like the way it does to me?

'Cos I know that there will never be a doubt in me
'Cos mama told me it was meant to be
I found my baby in the bee dop an' doo bah
That's how I found my way to God

That's how I found my way to God
That's how I found my way to God
That's how I found my way to God
