Don't say what you're about to say  
Believe me, you are my fate  
And I believe you'll find a way  
Or will you keep on falling  
Until you reach the ground?

Of your lonely mind will you  
Ever find yourself again?  
And will you keep on dying  
Until you've finally found, a better place  
Where you find you  
Will not wake up again?

'Cause what you see is crystal wall  
What you breath is silver air  
But weigh this moment with a future  
Of your dreams, no longer there

What you see is burning black  
What you breathe is empty air  
So weigh this moment with a future  
Of your dreams, no longer there

You're falling, yeah  
You're falling, yeah  
So take my hand  
And come on let's fly

There's always someone laughing  
From the corner of their cage  
But to fly amongst the mountains  
You must dance within the waves

Will you keep on falling  
Until you reach the ground?  
Of your lonely mind will you  
Ever find yourself again?

And will you keep on dying  
Until you've finally found, a better place  
Where you find you  
Will not wake up again?

'Cause what you see is crystal wall  
What you breath is silver air  
But weigh this moment with a future  
Of your dreams, no longer there

And what you see is burning black  
And what you breathe is empty air  
So weigh this moment with a future  
Of your dreams, no longer there

You're falling, yeah  
You're falling, yeah  
So take my hand  
Come on, let's fly
