"Christmas With Me"

Visit "[Christmas With Me](#)" on MotoLyrics.com

Are you walking down sunset strip?
Have you found a new relationship?
Do you want to spend christmas with me?
When the days grow dark I start to shine
My eyes are firing off sparks at the passing time
My memories want to spend christmas with me
Christmas with me
Christmas
Your car is driving fast but your mind is slow
You try to sell your past but no buyers show
Do you want to spend christmas with me?
Your eyes are looking bright but your heart feels numb
You want to creep inside of the belly of your mum
Do you want to spend christmas with me?
Christmas with me
Christmas
I see the clock tick forward
I see it
I see it
I oughta lock the door
But I leave it
Leave it
